

Introduction to develoPPP.de

Webinar for Companies

Two Sessions in January and February 2021

Sustainable business initiatives in developing countries

- Would you like to take your product to a new market?
- Do you want to pilot an innovative technology or a demonstration unit?
- Would you like to train people or suppliers to improve the quality of your products and services?
- Do you want to raise the standards in your supply chain and are you seeking certification?

develoPPP.de was set up to foster the involvement of the private sector in areas where business opportunities and development policy initiatives overlap.

GIZ offers financial and technical support for companies that want to do business or have already begun operating in developing and emerging-market countries.

The company is responsible for covering at least half of the overall costs and should meet our **minimum criteria**:

1. minimum annual turnover of EUR 800,000
2. at least two years on the market
3. at least 8 employees

On our [website](#), you will find more detailed information and project examples.

In order to introduce you and other interested companies to the program, answer general questions, and inform you about possible partner constellations, we are happy to invite you to participate in our **webinar** with our project managers.

The sessions will take place in **English** on:

January 28, 4:00 pm – 5:30 pm CET
February 4, 9:30 am – 11:00 am CET

If you would like to participate, please fill out the form below and send it to Vera Woerner (vera.woerner@giz.de). We will then send you the MS Teams Link.

Form to be filled out by company
